

Welcome

Scarlet Haven Nursing Care is a Home Care agency that specializes in Neonatal, Infant, & Pediatric Care servicing Virginia. In the recent past, we have found it necessary to include whole range of undeserved patients; therefore, our clientele now includes patients of all ages in the underserved Medicaid population.

We do our best to lessen the burdens of hospitalization and traveling to health facilities by delivering above-standard health care within your home. We recognize the growing need for care in these fast-paced and stressful times, and our response is a dependable home care agency staffed with dedicated, and compassionate caregivers.

At Scarlet Haven, we have trained and dedicated caregivers who are ready to deliver our professional and best quality care in the comfort of your home. Through our thorough initial assessment, we are able to tailor our services to meet each individual client's needs.

"When you are a nurse, you know that every day you will either touch a life or a life will have forever touched yours."

Skilled Nursing

Scarlet Haven offers Skilled Nursing services, as delivered by a team of individuals qualified and experienced in nursing care. They will work closely with the patient's physician to make certain that care is given as needed, and to ensure optimum results.

Our Skilled Nursing services include:

- Vital Signs Monitoring
- Diabetic Care
- Foley Catheter Care
- Wound Dressing
- Wound Care
- IV Therapy
- Equipment care and training
- Tracheostomy care
- Ventilator management
- TPN Services
- Infusion Therapy

Our Promise

At Scarlet Haven Nursing Care, we are devoted to providing a healthy, safe and structured environment for our patients and their families. We know and understand the struggles that families with special needs children and other loved ones face.

We work diligently with our patients and their families to find solutions for some of the common stresses and struggles they face. We believe that consistency is key in making the drastic improvements in the health of our patients and leading them to a faster recovery.

To achieve this goal, we ensure that each client has the same consistent caregiver(s) from the time care is initiated until our services are no longer needed. We know that when a patient has and maintains the same caregiver(s), it gives that patient and his family a little sense of peace. Your sense of peace matters because 'With Us, You Are Family.'

Meet Our Caregivers

At Scarlet Haven Nursing Care, we pride ourselves on having qualified and dedicated caregivers. Our mission begins with a commitment to the unique needs of your child as well as your family.

Each member of our exceptional staff of RN's, LPN's, CNA's, and Nursing Case Managers have all been rigorously trained in pediatrics and have had extensive home care experience. They know and understand the importance of delivering individualized care to meet each child's specific needs.

Implementing these tools results in decreased ER visits, reduced admissions, and an all around improved quality of life for your child, as well as your family.

The journey for Scarlet Haven Nursing Care began when a nurse fell in love with an amazing little boy, and could not imagine not being a part of his life. Today, Scarlet Haven will continue to practice nursing services that make patients and their families a priority.

Our Services

Our aim at Scarlet Haven is to help medically-fragile, technology-supported children not only live, but thrive at home, in a peaceful environment with their families. As a specialized Pediatric Home Care agency, we provide our patients and their families with a broad range of high quality compassionate care, services, and support.

Our Pediatric Home Care is the best choice for your child because we provide a wide range of specialized services. Our services include, but are not limited to, the following:
Respiratory Therapy In-Home Asthma Management Infusion Therapy Gastrointestinal Disorder Endocrine Disorders (Including Insulin Pumps) Neuromuscular Disorders Spinal Cord Injuries Neoplastic Diseases Feeding Disorders (Cleft Lip/Palate, NGT,GT, JT, etc.)

Our exceptional Home Care services make extended hospital stays for children unnecessary, because we provide in-home care in a peaceful and familiar environment.

Please contact us and we will handle the rest. With our specialized team of Pediatric Nurses to render you with peace of mind, we have developed and continually implement unique and targeted programs to challenge different aspects of our pediatric patient's self. This type of focused care is crucial in all children, but more so in children with physical health challenges.
